"THE STICK" USB RFID READER

INFOCHIP

SIMPLY SCAN!

So simple anyone can use it. NO drivers, software, programming or complicated setup... simply plug The Stick into an available USB Port on most devices. The unique ChipID is automatically typed into the current application on your device.

Optimized to read small plug tags (<8mm) embedded in metal, plus other HF tags (ICode, etc.)

Stylus tip for use on various handhelds.

Comes with multiple cable options.

Works like a USB keyboard... simply scan to send the unique ChipID to the current application
