

**ASSEMBLE and TEST**

Use ContiTech hose prefill forms to quickly input and upload hose assemblies with test certificates and photos to web.

**SCHEDULE**

Schedule future inspections or testing. Auto-email overdue alerts to designated user teams.

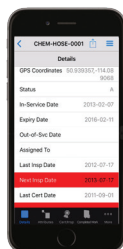

**SHARE**

Distributors and end users interact with hose record as an ecosystem.

**REFERENCE**

Hose profiles, schedules, pics, certificates and more.

**REPORT**

Advanced search and reporting by hose model, location, status, etc. Review and sort hose reports at the end of each survey.

**REORDER**

Request hose from a smartphone with specifics and delivery information.

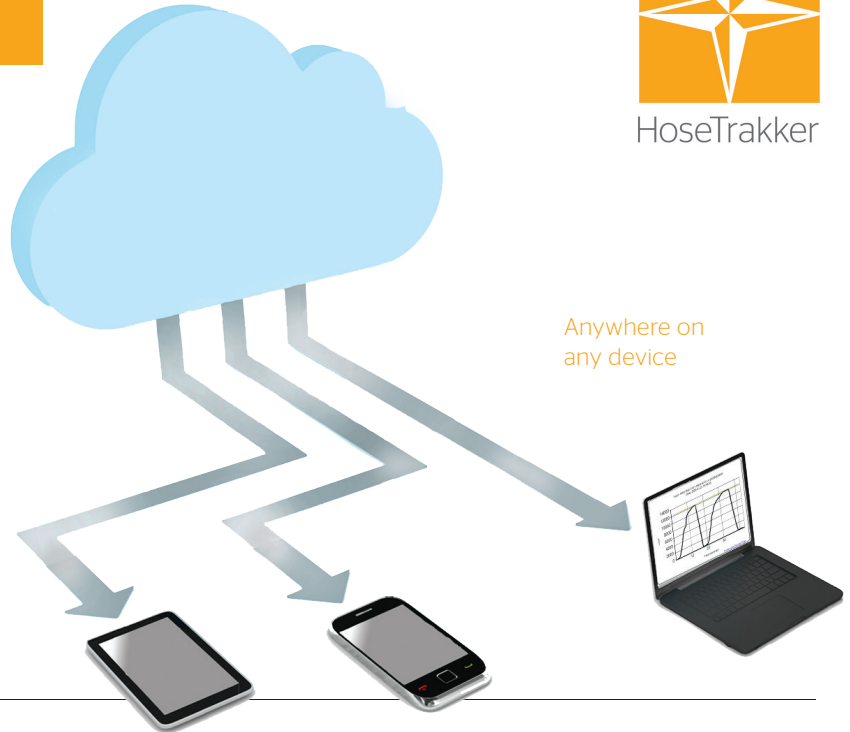

**HoseTrakker 2.0 improves hose management.**

ContiTech STAR distributors provide hose profiles, schedules and test certificates to customers via smartphone apps and a secure web portal.

## HOSE TRACKING MADE EASY

**HOSETRAKKER** improves safety while reducing the total cost of hose ownership. Digital technologies drive efficiencies during data entry, document management, scheduling and hose ordering.

## UPGRADE CAPABILITIES

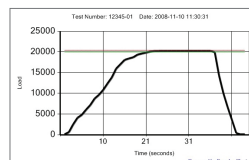

### SENSOR COMPATIBILITY (I.O.T.)

Connect third-party sensor technologies and gather data to track hose lifespan, brand comparison and failure prevention.

### PRESSURE TEST

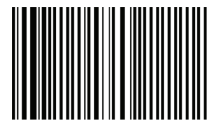

Create test certificate and perform digital tests in one step.

### CUSTOM BRANDING

Add your company logo and address to the online portal and test certificate headers.

### RFID AND BARCODE

Contact your ContiTech sales representative to learn more.
